

Trusted Solutions from Sea to Sea

Delivering proven, essential, independent,
expert services to Defence and Government

A Global Enterprise

QinetiQ is comprised of teams with dedicated experts in defence, aerospace, security and related markets. We provide high-end technical expertise and advice reinforced by world class knowledge, research and innovation. More specifically we are world leaders in Research; Advice; Test and Evaluation; Engineering solutions; Training and Assurance. Our people make the critical difference to customers by providing unique approaches to complex problem solving. We supply answers that require innovation, deep domain knowledge, rigorous independent thinking and technical expertise. Our solutions save lives, protect assets and critical infrastructure, reduce costs while ensuring value for money. While our global track record is built on a strong heritage, we are a forward looking organization focussing on customer requirements today and in the future.

QinetiQ delivers unparalleled advisory services, technology, and products to the aerospace, defence, civil, and security markets in Canada. We offer high-end technical knowledge supported by world-class research and innovation. QinetiQ continues to grow its presence in Canada with a Canadian workforce delivering solutions to Canadian challenges. QinetiQ Canada is quickly establishing itself as the chosen partner in Canada for mission-critical solutions.

Our key Canadian services include:
