

DEFENCE AT THE EDGE CYBER & BEYOND

613-254-5500 | www.PureLogicIT.com | @PureLogicIT

PureLogic IT Solutions is a trusted Canadian defence partner delivering tailored, end-to-end technology solutions that support mission-critical operations across government and national security sectors. With over 18 years of experience as a trusted technology advisor in the defence, cybersecurity, and intelligence sectors, we specialize in three core pillars: modern data centers, deployable kits, and cybersecurity solutions.

As a 100% Canadian, woman-owned company, we combine deep technical expertise with agile responsiveness—ensuring alignment with both operational and procurement needs. From ruggedized systems and AI integration to edge computing, we help clients move from concept to capability with confidence. As a solutions integrator, we work with federal and private sector clients to deliver seamless IT infrastructure and professional services.
