

Delivering Mission-Critical Solutions for Defence and Security

Enhancing operational readiness with advanced training, manufacturing, cybersecurity and health solutions

Calian is a Canadian company that delivers services, products and solutions for defence and security customers at home, for NATO and for NATO member nations. With over 40 years of experience, Calian designs, develops and delivers mission-critical solutions to support operational readiness.

Military Training

Calian delivers realistic, immersive simulation-based military training. Over the past 25 years we have trained more than 250,000 military personnel at over 30 locations across NATO and NATO countries. From basic skills to advanced and collective training, Calian builds operational readiness through training.

- **Individual Training:** We provide instructors, classroom instruction and live training for over two dozen occupational specialties to build individual skills and competence.
- **Virtual Reality:** We use virtual reality technology to reduce cost and risk of injury, and shorten time to competency, while keeping learners engaged.
- **Collective Training:** We design and develop large-scale training using synthetic environments to deliver a real “train-as-you-fight” experience.

Manufacturing

Calian designs, builds, tests and delivers systems and components for capital defence programs through innovative approaches, relying on a design-focused engineering approach.

- **Composite Boats:** We build composite boats for defence and security applications.
- **GNSS:** We design, build, test and deliver some of the most accurate GNSS antennas in the world.
- **Vetronics:** We design custom components or deliver build-to-print for any defence program.

Cybersecurity, Emissions Security and IT Solutions

Ensure the resilience and security of your global defence operations with robust cyber defence and emissions security solutions. Our solutions protect facilities, networks, devices and the passage of critical information—from the battlefield to national headquarters.

- **Monitoring & Incident Response:** We provide 24/7 monitoring of your network, relying on proprietary automated tools to keep your network safe.
- **Emissions Security:** We secure devices, networks and physical infrastructure and provide monitoring to eliminate data leakage and prevent exposure of information.
- **Forward-Deployable Solutions:** We provide secure data storage and connectivity to bring your command and control solutions to the forward edge.

Health Solutions

Calian is the leading provider of health services for the Canadian Armed Forces, delivering healthcare across more than 85 clinical specializations at more than 35 military installations across Canada.

- **Health Services On-Site:** Our clinicians treat military personnel to keep them ready for duty at bases and stations across Canada.
- **Digital Health Technology:** Our digital solutions link clinicians, patients, records and appointments using secure cloud services and advanced analytics.
